FUNDING SNAPSHOT

U.S. Institutional Giving for Asian American,
Native Hawaiian, and Pacific Islander Communities

About AAPIP

Established in 1990, Asian Americans/Pacific Islanders in Philanthropy (AAPIP) is a justice-minded national philanthropic affinity organization that provides unique community spaces for Asian Americans, Native Hawaiians, Pacific Islanders, and allies in philanthropy. We are a membership-based organization that centers equity and justice in philanthropy to move money and build power of AA and NHPI communities for an inclusive democracy.

AAPIP serves as the progressive home to AA and NHPIs in philanthropy at all leadership levels across the sector. Anchored by national staff, AAPIP works across the country through a chapter network as sites of regional activism serving as a bridge between philanthropy and local non-profit organizations. These chapters are centers for place-based advocacy, information sharing, leadership development and network building around AA and NHPI issues and philanthropy.

Introduction

This Regional Funding Snapshot builds from AAPIP's 2025 AANHPI Funding Snapshot, diving deeper into ten metropolitan areas where AAPIP has Chapters. AAPIP will produce snapshots for Boston, Chicago, Denver, District of Columbia, Los Angeles, Minneapolis-Saint Paul, New York City, Philadelphia, San Francisco Bay Area, and Seattle.

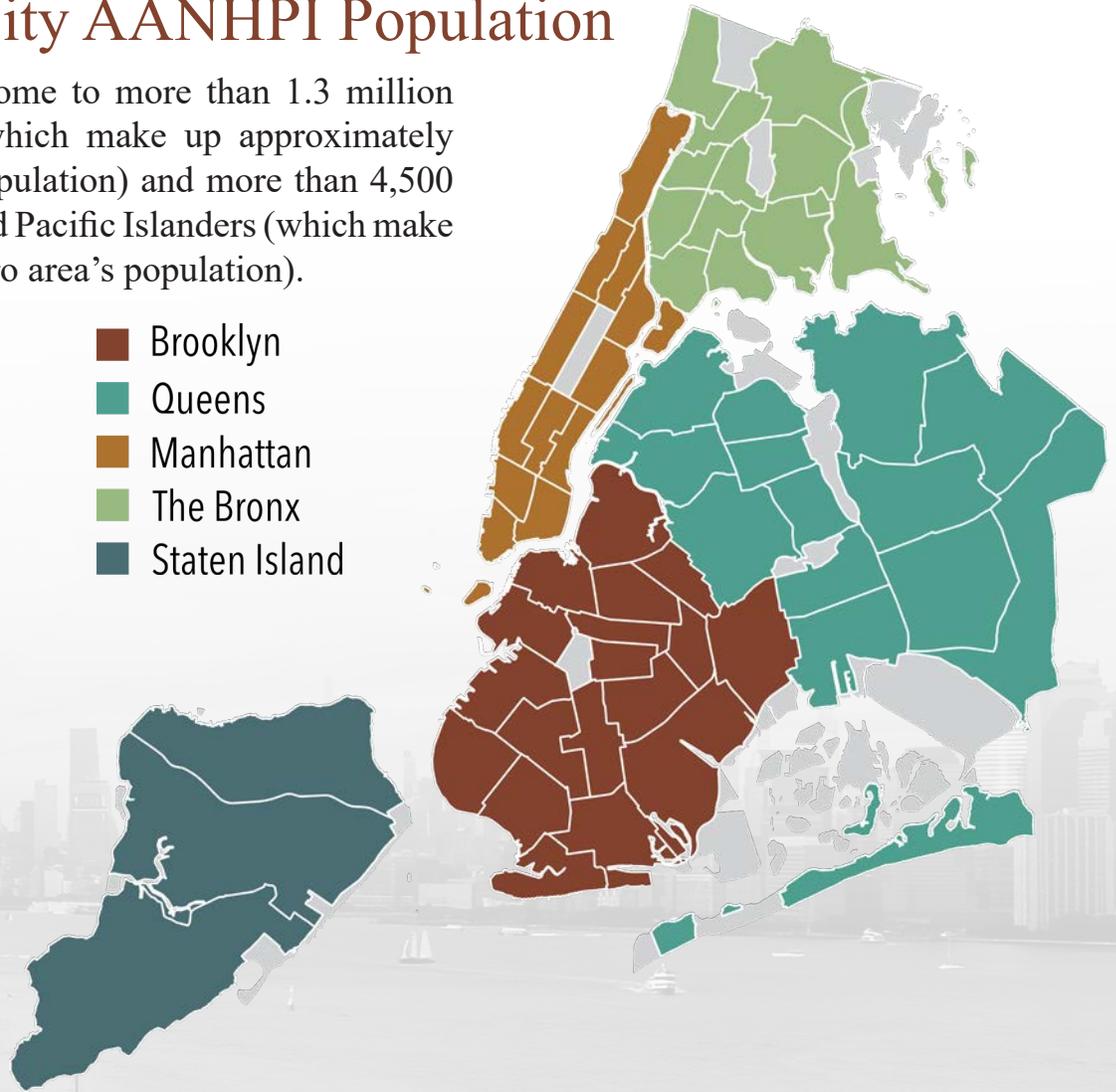

Methodology

The analyses presented in this Regional Funding Snapshot are drawn from the same dataset as AAPIP's 2025 National Funding Snapshot. This dataset contains grants-level data from foundations and corporations, excluding individual and government giving, pledges, in-kind contributions, and social-impact bonds awarded between 2019 and 2023, using data current as of August 2, 2024 (for data on grants awarded in calendar years 2019–2022) and May 19, 2025 (for data on grants awarded in calendar year 2023). Discretionary and donor-advised grants from U.S. community foundations are also included. Candid classifies grants using its Philanthropy Classification System, which codes by issue area, population, strategy, and geography; most grants carry multiple codes. AAPIP conducted intensive quality control, specifically focused on population, to offer a more accurate representation of institutional funding designated to Asian American, Native Hawaiian, and Pacific Islander communities.

New York City AANHPI Population

New York City is home to more than 1.3 million Asian Americans (which make up approximately 14% of the city's population) and more than 4,500 Native Hawaiians and Pacific Islanders (which make up 0.05% of the metro area's population).
